

# THE PERRY:

## A Shaded Drought-Tolerant Landscape

**SIZE:** 40x10 ft. | 1 square = approximately 2 sq. ft. | 400 sq. ft.

### ABOUT THIS DESIGN:

This drought-tolerant shade garden landscape is meant for spaces that get four or fewer hours of sun per day. Morning sun would be best for this garden, so a north- or east-facing location is ideal. You'll enjoy greens, whites, and purples, abundant fall color and productive berries for wildlife.

### SUGGESTED PLANTS (at avg. maturity):

- A: Snowberry (4x4 ft) = 6
- B: Bergenia (2x2 ft) = 8
- C: Astilbe Purple Candles (2x2 ft) = 6
- D: Creeping Oregon Grape (2x4 ft) = 7
- E: Hosta Patriot (2x2 ft) = 10
- F: Coralberry (5x5 ft) = 5
